Security and protection of your personal data

We consider it our primary task to safeguard the confidentiality of the personal data you provide and protect it from unauthorised access. We therefore apply the utmost care and state of the art security standards to ensure maximum protection of your personal data.

As a company under private law, we are subject to the provisions of the European General Data Protection Regulation (GDPR) and the German Federal Data Protection Act ("Bundesdatenschutzgesetz", BDSG). We have taken technical and organisational measures to ensure that these data protection regulations are observed both by us and by our external service providers.

Definitions

The legislator requires that personal data be processed in a lawful manner, in good faith and in a manner that is comprehensible to the data subject concerned ("lawfulness, processing in good faith, transparency"). In order to ensure this, we have provided an explanation below of specific legal terms which are also used in this Privacy Policy:

1. Personal data

"Personal data" means any information relating to an identified or identifiable natural person ("data subject"); an identifiable natural person is one who can be identified, directly or indirectly, in particular by reference to an identifier such as a name, an identification number, location data, an online identifier or to one or more factors specific to the physical, physiological, genetic, mental, economic, cultural or social identity of that natural person.

2. Processing

"Processing" means any operation or set of operations which is performed on personal data or on sets of personal data, whether or not by automated means, such as collection, recording, organisation, structuring, storage, adaptation or alteration, retrieval, consultation, use, disclosure by transmission, dissemination or otherwise making available, alignment or combination, restriction, erasure or destruction.

3. Restriction of processing

"Restriction of processing" means the marking of stored personal data with the aim of limiting their processing in the future.

4. Profiling

"Profiling" means any form of automated processing of personal data consisting of the use of personal data to evaluate certain personal aspects relating to a natural person, in particular to analyse or predict aspects concerning that natural person's performance at work, economic situation, health, personal preferences, interests, reliability, behaviour, location or movements.

5. Pseudonymisation

"Pseudonymisation" means the processing of personal data in such a manner that the personal data can no longer be attributed to a specific data subject without the use of additional information, provided that such additional information is kept separately and is subject to technical and organisational measures to ensure that the personal data are not attributed to an identified or identifiable natural person.

6. Filing system

"Filing system" means any structured set of personal data which are accessible according to specific criteria, whether centralised, decentralised or dispersed on a functional or geographical basis.

7. Controller

"Controller" means the natural or legal person, public authority, agency or other body which, alone or jointly with others, determines the purposes and means of the processing of personal data; where the purposes and means of such processing are determined by Union or Member State law, the controller or the specific criteria for its nomination may be provided for by Union or Member State law.

8. Processor

"Processor" means a natural or legal person, public authority, agency or other body which processes personal data on behalf of the controller.

9. Recipient

"Recipient" means a natural or legal person, public authority, agency or another body, to which the personal data are disclosed, whether a third party or not. However, public authorities which may receive personal data in the framework of a particular inquiry in accordance with Union or Member State law shall not be regarded as recipients; the processing of those data by those public authorities shall be in compliance with the applicable data protection rules according to the purposes of the processing.

10. Third party

"Third party" means a natural or legal person, public authority, agency or body other than the data subject, controller, processor and persons who, under the direct authority of the controller or processor, are authorised to process personal data.

11. Consent

"Consent" of the data subject means any freely given, specific, informed and unambiguous indication of the data subject's wishes by which he or she, by a statement or by a clear affirmative action, signifies agreement to the processing of personal data relating to him or her.

Lawfulness of processing

The processing of personal data shall be lawful only if and to the extent that there is a legal basis for doing so. Pursuant to points (a) - (f) of Article 6(1) GDPR, the legal basis for processing may be as follows:

- a. the data subject has given consent to the processing of his or her personal data for one or more specific purposes;
- b. processing is necessary for the performance of a contract to which the data subject is party or in order to take steps at the request of the data subject prior to entering into a contract;
- c. processing is necessary for compliance with a legal obligation to which the controller is subject;
- d. processing is necessary in order to protect the vital interests of the data subject or of another natural person;
- e. processing is necessary for the performance of a task carried out in the public interest or in the exercise of official authority vested in the controller;
- f. processing is necessary for the purposes of the legitimate interests pursued by the controller or by a third party, except where such interests are overridden by the interests or fundamental rights and freedoms of the data subject which require protection of personal data, in particular where the data subject is a child.

The right to obtain a copy referred to in paragraph 3 shall not adversely affect the rights and freedoms of others.

(4) Right to rectification

You shall have the right to obtain from us without undue delay the rectification of inaccurate personal data concerning yourself. Taking into account the purposes of the processing, you shall have the right to have incomplete personal data completed, including by means of providing a supplementary statement.

(5) Right to erasure ("right to be forgotten")

You shall have the right to obtain from the controller the erasure of personal data concerning yourself without undue delay and the controller shall have the obligation to erase personal data without undue delay where one of the following grounds applies:

- a. the personal data are no longer necessary in relation to the purposes for which they were collected or otherwise processed;

The right to erasure ("right to be forgotten") shall not apply to the extent that processing is necessary:

- for exercising the right of freedom of expression and information;
- for compliance with a legal obligation which requires processing by Union or Member State law to which the controller is subject or for the performance of a task carried out in the public interest or in the exercise of official authority vested in the controller;
- for reasons of public interest in the area of public health in accordance with points (h) and (i) of Article 9(2) as well as Article 9(3) GDPR;

(6) Right to restriction of processing

You shall have the right to obtain from us restriction of processing of your personal data where one of the following applies:

- b. the processing is unlawful and the data subject opposes the erasure of the personal data and requests the restriction of their use instead;
- c. the controller no longer needs the personal data for the purposes of the processing, but they are required by the data subject for the establishment, exercise or defence of legal claims; or
- d. the data subject has objected to processing pursuant to Article 21(1) GDPR pending the verification whether the legitimate grounds of the controller override those of the data subject.

Where processing has been restricted pursuant to the aforementioned requirements, such personal data shall, with the exception of storage, only be processed with the data subject's consent or for the establishment, exercise or defence of legal claims or for the protection of the rights of another natural or legal person or for reasons of important public interest of the Union or of a Member State.

In order to exercise the right to restriction of processing, the data subject may contact us at any time using the contact details provided above.

In exercising your right to data portability subject to paragraph 1, you shall have the right to have the personal data transmitted directly from one controller to another, where technically feasible. Where you object to processing for direct marketing purposes, the personal data shall no longer be processed for such purposes.

In the context of the use of information society services, and notwithstanding Directive 2002/58/EC, you may exercise your right to object by automated means using technical specifications.

Where personal data are processed for scientific or historical research purposes or statistical purposes pursuant to Article 89(1), you, on grounds relating to your particular situation, shall have the right to object to processing of personal data concerning yourself, unless the processing is necessary for the performance of a task carried out for reasons of public interest.

You can exercise your right to object at any time by contacting the relevant controller.

(9) Automated individual decision-making, including profiling

You shall have the right not to be subject to a decision based solely on automated processing, including profiling, which produces legal effects concerning yourself or similarly significantly affects you. This shall not apply if the decision:

- a. is necessary for entering into, or performance of, a contract between the data subject and a data controller;
- b. is authorised by Union or Member State law to which the controller is subject and which also lays down suitable measures to safeguard the data subject's rights and freedoms and legitimate interests; or
- c. is based on the data subject's explicit consent.

The data controller shall implement suitable measures to safeguard the data subject's rights and freedoms and legitimate interests, at least the right to obtain human intervention on the part of the controller, to express his or her point of view and to contest the decision.

The data subject can exercise this right at any time by contacting the relevant controller.

(10) Right to lodge a complaint with a supervisory authority

Furthermore, without prejudice to any other administrative or judicial remedy, you shall have the right to lodge a complaint with a supervisory authority, in particular in the Member State of your habitual residence, place of work or place of the alleged infringement if you consider that the processing of personal data relating to yourself infringes this Regulation.

(11) Right to an effective judicial remedy

Without prejudice to any available administrative or non-judicial remedy, including the right to lodge a complaint with a supervisory authority pursuant to Article 77 GDPR, you shall have the right to an effective judicial remedy where you consider that your rights under this Regulation have been infringed as a result of the processing of your personal data in non-compliance with this Regulation.
