WÜKOSEAL® 630

TECHNICAL INFORMATION

Application: WÜKOSEAL® 630 is a waterborne dispersion for use as heat sealable oil/grease and water proof coating applied on paper and cardboard.

Properties and advantages:
- Good water resistance
- Good oil and grease resistance
- Recyclable
- Heat sealable

Technical data:
- Appearance: transparent
- Base: polymer
- Active content: 30.0 + 2.0 %
- pH-value: 8.0 + 1.0
- Density: approx. 1.0 g/cm³

Recommended dosage: The dosage depends on the surface structure and condition of the to be coated material as well as of the wanted degree of barrier properties.

The dispersion can be diluted with deionised water.
If you formulate our product please make sure, that the pH-value of your additives is not below pH 8.

Transport and storage: Our dispersions are sensitive to frost!
To be stored and transported between + 5° C and + 35° C.
Maximum storage time 6 months in originally closed packaging.

Packaging:
- Drums with 205 kg
- Containers with about 1.000 kg

Our technical suggestions are based on data from many experiments and cannot represent a warranty of any kind as to their performance in other formulations. Customers must always verify our product’s performance in their own systems. This technical data sheet replaces all previous issues.
