    - CAS: 64742-55-8 Distillates (petroleum), hydrotreated light paraffinic
      - ACGIH - TWA Long-term value: 5 mg/m³
        - mineral oil mist
    - CAS: 64742-53-6 Distillates (petroleum), hydrotreated light naphthenic
      - ACGIH-TWA Long-term value: 5 mg/m³
        - oil mist

  - Additional information: The lists valid during the making were used as basis.

- 8.2 Exposure controls

  - Personal protective equipment:
    - General protective and hygienic measures:
      - The usual precautionary measures are to be adhered to when handling chemicals.
      - Avoid contact with the eyes and skin.
      - Do not inhale gases / fumes / aerosols.
    - Respiratory protection: Use suitable respiratory protective device only when aerosol or mist is formed.
    - Protection of hands:
      - Only use chemical-protective gloves with CE-labelling of category III.
      - The glove material has to be impermeable and resistant to the product / the substance / the preparation.
      - Selection of the glove material on consideration of the penetration times, rates of diffusion and the degradation
    - Material of gloves
      - Nitrile rubber, NBR
      - Recommended thickness of the material: ≥ 0.4 mm
      - The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer. As the product is a preparation of several substances, the resistance of the glove material can not be calculated in advance and has therefore to be checked prior to the application.
    - Penetration time of glove material
      - For the mixture of chemicals mentioned below the penetration time has to be at least 480 minutes (Permeation according to EN 16523-1:2015: Level 6).
      - The determined penetration times according to EN 16523-1:2015 are not performed under practical conditions. Therefore a maximum wearing time, which corresponds to 50% of the penetration time, is recommended.
      - The exact break through time has to be found out by the manufacturer of the protective gloves and has to be observed.
    - Eye protection: Safety glasses
Trade name: AGITAN® A203E

- Body protection: Protective work clothing
