

MAGRABAR® PD-4483

TECHNICAL INFORMATION

Appearance:	liquid
Color:	opaque amber
Typical Properties:	Specific Gravity at 25°C: 0.99
	Density (lbs/US Gallons): 8.2
	Viscosity at 25°C: 200 cPs
	Solubility in water: emulsifies

This information is intended as a guideline only and should not be used to issue specifications. Slight deviations do not affect application and capability of the product. For specifications please consult the Certificate of Analysis.

Properties/applications:	MAGRABAR PD-4483 is a 100% active, vegetable oil based, nonionic defoamer designed to eliminate foam in protein and carbohydrate media. It rapidly knocks down existing foam and is persistent in keeping foam down. PD-4483 contains vegetable oil, polyol-fatty acid ester, hydrophobic silica and surfactants listed in the Code of Federal Regulations 21 CFR 173.340. PD-4483 is a dispersion that may settle on storage. Mix before use. PD-4483 is certified Kosher Pareve and Halal.
Storage/handling:	Store in a cool, dry and well ventilated place.
Packaging:	55 gallon plastic Drum holding 430 lbs/ 195 kg net 330 gallon non-returnable Tote holding 2,500 lbs/1,134 kg net and in bulk quantities

Our products are allergen free, free from animal derived ingredients and certified Kosher Pareve and Halal.
